

# Google Lens & QR Code Scanning Tutorials

## YOUTUBE PLAYLIST

<https://bit.ly/2vAQexX>

1. Search the apps on your device to check if “Google Lens” or a “QR Scanner” is already installed.
2. If not, go to your app store and search for the terms underlined above. (If yes, skip to #3.) Download the app onto your device.
3. Open the app and point the camera at the QR code.
4. The app should serve up a web page link for the scanned item.
5. Click on the link.

Alternate: Take a photo of the QR code and scan it later. (Watch video 559 in the YouTube Playlist.)
