Film

Action Steps to Practice Watershed Awareness

- Drive less
- Conserve water and electricity
- Use phosphate-free soaps & detergents
- Become a water monitor volunteer
- Plant and nurture native plants
- Help eradicate invasive plant species
- Properly maintain your septic system
- Support open land preservation
- Insist on green building & remodeling
- Support dense up-zoning building code with walkable neighborhoods
- Keep waterfronts, farmland, and storm drain runoffs clear of animal waste, pesticides, fertilizers, and automotive spills
-

Bonus – Not included in the film. Think about plastic. In your car, tarps that cover piles, children's play equipment, Tupperware, in synthetic clothing, etc. Sun and heat break it down. Sitting outside and running them through appliances creates micro threads and particles that go everywhere. Are there ways to reduce or alter plastic use in your life?

Quotes that Didn't Make the Cut

"Earth provides enough to satisfy every man's needs, but not every man's greed." —Mahatma Ghandi

"Problems cannot be solved at the same level of awareness that created them." —Albert Einstein

"The Earth is a fine place and worth fighting for." — Ernest Hemingway

"You cannot get through a single day without having an impact on the world around you. What you do makes a difference and you have to decide what kind of a difference you want to make." —Jane Goodall
